

Team 15: Minutes of Meeting

Date: 18th April 2024 – Client meet 11

What we have shown:

1. We showed the issue of the CORS not allowing the mobile application to make the API calls due to server side Cross-request validation being blocked from the IMS server.
2. We showed the different profile pages for the faculty, staff and students in the profile page.
3. We updated the Sidebar and About Page.

Future Tasks:

1. Try working on building the middleware for the Application to solve the issue of the CORS blocking the requests.
2. Check the status of the Leave application and send the notifications whenever the leave status changes.
3. Finish the POST method for the Add bank details page.

Feedback from client:

1. She said that she will look into the issue of the CORS blocking the application to get the requests.
2. She asked us to figure out the file upload for the leave application and bank passbook pages..
