Team - 15: Minutes of the Meeting

Date: 27 February 2024 - Client Meeting 5

What we have shown:

1. We presented the Software Requirements Specification (SRS) Document and the Test Tracker Document.

2. The My Profile screens on the application were demonstrated to the client.

3. The application was displayed at the production level, emphasizing its mobile functionality instead of the development level (Sub release in the first release)

Future Tasks:

1.We were asked to make a list of the API required for the project by the next meeting.

2. Develop an API to facilitate data transmission from the application to the client.

3. Proceed with the implementation of the sidebar and incorporation of the IIITH Logo on every screen.

4.We said that we will start working with the Leave Application.

Feedback from the Client:

1. The client expressed satisfaction with the SRS document and Test Tracker.

2. The client suggested improving the Home Page.

3. The next meeting is scheduled for March 4.
