# Team 15: Minutes of Meeting
# Date: 4 February 2024 – Client meet 7

**What we have shown**:
1. We showed the dropdown in the leave application for choosing the reason of leave, from and to date in the leave application.
2. 2. We showed picking the file in the leave application for proof of leave document.
3. 3. We showed a common header with IIIT Logo on every screen.
4. 4. Demonstrated the Log Out and Welcome screens.
5. 5. Presented the essential API functionalities for the project.

**Future Tasks:**
1. Restrict editing options to the Bank details page, excluding the General page.
2. Implement character limits for each field.
3. Address null values for reasons with no data.
4. Integrate a new feature for "My Courses" within the application.
5. Finalise API descriptions by the end of today.

**Feedback from client:**
1. Prefer users no need to add too much data while filling the form.
2. Streamline the form-filling process, minimising the amount of data users need to input.
3. Provide detailed descriptions for each API field, elucidating the purpose of utilising API keys.
4. Prioritise completing the General Profile page and finalise the Leave Request and Bank Details for Release 1.
